

UBIT GP Riser Guard Installation

Mobil Producing Nigeria (MPN)

MPN was to install fabricated Riser Guard assemblies on the UBIT GP platform jacket legs. Ariosh was contracted to render a Design Verification service which includes Laser Scanning, System Validation, System Modification, Virtual Installation, Fabrication Assurance and Trial/Mock Fit-Up. Ariosh delivered a one-time, fit-for-installation assembly of the Riser Guards with the application of HDS Laser Scanning systems and intelligent 3D models. MPN was also able to save ample amount of money on rework and field trips.
